

SAC RIVER WATERSHED STOCKTON COMMUNITY MEETING

We are looking for people interested in the future of Sac River and Stockton Lake.

Watershed Committee of the Ozarks is partnering with Missouri Department of Natural Resources on the Our Missouri Waters efforts in the Sac River Watershed. We need local input on water resource priorities. A watershed advisory committee will be assembled to identify and develop resources to achieve those priorities to enhance the Sac River Watershed. The outcome will be a Healthy Watershed Plan that will focus watershed priorities. Citizens, community leaders, and elected officials are invited to attend to share how they use their water and what's needed to continue protecting and enhancing their watershed.

DATE: Tuesday, November 17th, 2015

LOCATION: Cedar County Health Complex, 807 Owen Mill Road
Stockton, MO 65785

TIME: 5:30pm – Dinner provided

For dinner purposes, please RSVP to Stacey Armstrong, Projects Manager, at 417-866-1127 ext. 125 or stacey@watershedcommittee.org
